I wish to object strongly to the proposed a two stories rare extension at the above address (145 Malden Road)

The extension will impinge on the privacy of my patio garden which overlooks from the property.

The Erection of a 1st and 2nd floor flats will cause lose of light and reduce the open areial view of the skyline to my house and my garden.

The proposed extension will cause overshadowing to my property due to its proximity to the party wall and the height of the extension being higher than the party wall. This will create an overbearing environment next to my house and my garden. I will be looking up to a brick wa

As it is now I am already experiencing intrusion in the form of noise which happens particularly in the spring and summer time. It is very irritating and annoying to the say the list, being forced to listen to loud music blaring out of the windows and loud conversations which sound and feel as though it is acutally happening in my garden. Because of these problems in most cases I have to close my patio doors until such noises subside.

Please continue on extra sheets if you wish

Continue –

In these row of buildings where my property shares party wall, (2 Malden Place, 145, 147, 149 Malden Road) which are rented accommodations tenants come and go frequently, the proposed extension will have a devastating effects and will cause more misery and unhappiness to me.

This section of Malden Road and the entrance of Malden Place up to number 2 Quadrant Grove is the area where the public pavements littered with rubbish bags for days in and days out (24/7) This practice will get worse than it is now.
