2014/6700/P	C Lewis	12D Carlingford Road NW3 1RX	26/01/2015 16:26:14	OBJ	I believe this basement is excessive and an unnecessary addition to the property, which already covers the whole house (while neighbouring properties are divided into flats) There is already a large daily noise disruption due to the current building work and an extra basement would require a lot more work and noise which disturbs people in neighbouring houses trying to work at home. This sub-basement, when there is already a substantial lower ground floor may also open up undesired precedents to more extra basements in the area.
