2014/7649/P	Samantha Morgan	97c Iverson Road	26/01/2015 13:42:23	OBJ	I object to parts of this application: to the height of the buildings, particularly the 11 storey tower block, which is on a raised bank, so even higher. There is no building as high as this in West Hampstead and will alter the area negatively. It will also lead to further high rise blocks as Camden will no longer be able to argue against them. In addition, I object to Camden funding this proposal through flats, rather than through the government grant which is available. I also object to Camden not advising the public as to why they will not use the grant. The proposal is also difficult in terms of splitting the school over 2 sites, eg the time you have advised for the walk between the 2 sites does not taken account of the walking pace of young children; there is an increase in congestion and traffic on an already narrow and busy road and surrounding roads;
