| 2014/7703/P     | A MANNAN         | 6A Burghley Road<br>London<br>NW5 1UE | 26/01/2015 17:03:34 | COMMNT   | <p>As a neighbour who will be directly affected by the application. I am concerned an increase in residents will cause significant build up of refuse, and recycling annoyances. Presently, this amenities is at full capacity.</p> <p>My view is all local Neighbours need to be reassured of the steps that will ne taken in order to eliminate disruption. I.e Suggest a purpose built area is developed to accommodate refuse and recycling amenities.</p> <p>I wish to view a revised planning diagram prior to supporting the application.</p> <p>Additionally, a scaffolding construction has been erected for the past 4 odd months, and this has already caused myself and family disruption, work man, building works. We were hoping the works undertaken would be completed before the summer of 2015.</p> <p>Kind regards<br/>A Mannan</p> |
