

Dear Sir or Madam,

I would like to formally state my objection as the owner of flat 15 The Panoramic 12 Pond Street NW3 2PS to the planning application referred to above.

I am concerned that the building work will cause terrible disruption to the rest of the tenants if the developers seek access to the site through common parts of the building. I am also concerned that disruption will be caused by access to the site achieved by scaffolding. Moreover, I believe that scaffolding will affect the overall security of the building.

I have been notified of this application, by another tenant, only today, which I believe is the deadline for objections. I have been told that there was only one letter from the council and a site notice on the street. I myself have only heard about this matter today.

I am sure that if there is an inclusive discussion with the other tenants in the building, there will be across the board, dissent and objection to it.

Yours sincerely  
Adam Friedman
