Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP25 of the London Borough of Camden Local Development Framework Development Policies.

Informative(s):

- 1 Reasons for granting permission.

The proposed installation of rooflights and internal alterations to grade II listed flat would be to non-original structures of the building and would not adversely affect the spatial qualities of the flat. The rooflights to the front of the building would be flush with the roofslope and would not harm the appearance or special interest of the building. The proposal would preserve the special interest of the listed building and the conservation area.

The rooflights and alterations would not give rise to any adverse impact on the amenity of neighbouring occupiers in terms of loss of light or loss of privacy.

The planning and appeal history of the site has been taken into account when coming to this decision. No objections were received prior to making this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011; and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.
