I live on the ground floor next to the building. Already there is a lot of traffic due to Royal Free hospital & Marks & Spencer supermarket. This proposal will cause a lot of noise nuisance & increase traffic & parking issues. I work from home therefore cannot afford extra noise as it will affect my work.

Also I am registered disabled, as I have mobility issues & therefore do not want problems entering my accommodation, due to blocked pavements, equipment / trolleys and parking spaces.

I object to planning permission to be given to the above application for the following reasons:

Building another floor on top of the 7 storey building will be an enormous upheaval:

The noise and vibration of cutting through steel and concrete to obtain a staircase;

the nuisance of the common parts, i.e. passenger lifts, staircase, fire escape and car parks;

The almost impossible access of building materials from the very busy streets (Fleet Road and Pond Street and the Royal Free Hospital at the rear of the Panoramic);

and all the interruption of our peaceful life for all the residents.

I myself, living in Nr. 32, directly under Nr. 36, will also be affected by the loss of privacy from the planned terrace on the 8th floor, which would be upsetting me very much!

I beg you, not to grant planning permission for this application!
