Address:
44 Goldhurst Terrace
London
NW6 3HT

Proposal:

Drawing Nos: Site location plan, AP00, AP100, AP110, AP111, AP112, AP120, AP200R1 (option 1), AP201R01, AP210R01, AP211, AP212, AP220R1, AP221R1 and Design and Access Statement by Kokorelia Architects dated November 2014.

The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policies DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans: Site location plan, AP00, AP100, AP110, AP111, AP112, AP120, AP200R1 (option 1), AP201R01, AP210R01, AP211, AP212, AP220R1, AP221R1 and Design and Access Statement by Kokorelia Architects dated November 2014.

Reason: For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission.

Whilst the extension would be almost full width, it has been designed so that the protruding bay is emphasised with the glazed addition next to the brick extension. The proposed development, due to the stepped design, set in from the boundary with number 46 and appropriate materials would respect the form and rhythm of the rear elevation.

The depth of the extension has been reduced to just 2metres from the bay window which would limit its impact on the adjoining occupiers. It is considered that there would be no adverse impact on the adjoining occupiers in terms of loss of light or outlook.

One objection and one comment were received regarding the application. The concerns were duly considered prior to making this decision. The relevant appeal decision and history of the site has been taken into account when coming to this decision. Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.66 (LB's) and s.72 (CA's) of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011; and paragraphs 14, 17, and 56-66 and 126-141 of the National Planning Policy Framework.

- 3 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays.
