Dear Mikis

**17-19 Chalton Street, London NW1  
Daylight & Sunlight Study**

Following receipt of the updated drawings from DGA Architects, we confirm the amendments made to the scheme at 17-19 Chalton Street (as shown on drawing numbers 1468-100, 101, 102, 103) will have no material effect on our daylight and sunlight study dated January 2014 which was submitted as part of the planning application number (2014/1310/P). The external height, bulk and massing of the amended scheme has not been altered from that which we tested in our report. Any amendments that have been made to the scheme are to the internal configurations only.

Yours sincerely

Lok Tang
