2014/6297/P	Marchmont Association	62c Marchmont Street WC1N 1AB	28/01/2015 14:47:48	OBJ	The Marchmont Association remains concerned about the negative impact the proposed roller shutters will have on these historic buildings, which dated back to the 1790s. The roller shutters create the impression of a locality under siege or deserted, both of which are detrimental to the appearance and feel of the conservation area. Whilst being sympathetic to the applicant's stated concerns about break-ins and their attempts to 'disguise' the proposed roller shutters, we would still expect them to install standard security measures which do not have such a negative visual impact.
