2014/7803/P	Karen Ciclitira	32 Belsize Park Gardens NW3 4LH	01/02/2015 14:47:21	COMMNT	The building will impact on an already congested area. There will be noise and dust from the works. The works and his development will impact on the terrible traffic, parking and road safety. My daughter has asthma and already suffers from the building works in the area. The extension proposed is far too large and will impact on the light and design of the existing building. There are already far too many works planned for this area with the HS2 which will cause a great deal of disruption, noise and pollution.
