2014/7951/P	richard stokes	301 brinsmead 25a ryland rd london nw53eh	01/02/2015 16:59:02	OBJ	<p>As a resident of the Brinsmead building (formerly Portland House) my principal concern is, that in responding to the previous scheme for two penthouse type flats that was turned down on appeal in 2000, the new architect appears to ignore the fact of a major change from commercial to residential in what is referred to as 'Portland House', [ie now Brinsmead]. There are some subtle photographs and drawings showing how the new design meets the earlier objections, but which omit entirely any consideration of our building - or literally, our point of view.</p> <p>I object on at two grounds: 1, the loss of views/visual intrusion/light , 2 'overlooking' through the proposed large glass windows and the 'break out' area.</p> <p>Both these factors affect Brinsmead flats facing Imperial Works.</p> <p>There also appears to be a change of use to B1 [c] Light Industrial.</p>
