2015/0098/P	Jonny Storey	Flat 15 1-10 Summers Street	02/02/2015 10:28:34	OBJ	I would like to air my concerns with noise and placement of the unit on the rooftop. At present my childs bedroom is only approx 12ft away from the rooftop of this building and we have in the past had noise issues with outside events and parties taking place on this rooftop. With someones normal level conversation being audible between the buildings as it stands my concern would be to have a drone of an ongoing air-con unit which would disturb sleep to our household. If we could know more on noise levels and placement of said unit.
