2015/0398/P	Julie Kerr	11 Lymington Road London NW6 1HX	31/01/2015 14:30:51	COMMNT	First of all, we are very surprised to find this planning application has only been submitted on 29th January 2015. It seems rather retrospective given that building works have been on-going for 4 to 5 months. Residents in the street have risen their concerns on a number of occasions and we have been told that light underpinning and damp proof installation were being done. However, it appears that the whole basement area has been excavated as evidenced by 90 plus skips of soil being removed from the site. There seems to be very little detail in the proposed plans as what actually existed before any work commenced and what is now being proposed. Where are the original plans of the property to make a comparison. Consideration needs to be given to the impact of this proposal on this conservation area.
2015/0398/P	Flat 9	12 Lymington Road	03/02/2015 16:22:01	COMMNT	The works next door in number 10 have been unbearable! The noise is very disturbing specially on Saturday mornings as the staff starts at 8am. The pavement is covered in mud through the week and it is only clean on Saturdays after the works have finished. The rear extension will take away my privacy.
