Safety Nestbox 2GR (3-hole) [00221/1]

with integrated protection against predators

Enlarged nesting area: width 14 cm x length 19 cm

The design of this nest box and its front panel provides effective protection against cats and martens. With its choice of oval or three-hole entrance, the nesting chamber is well lit despite its size. Because of the light entering, the nest is built very low down at the rear of the box, away from the reach of predators. The front panel, with its integrated protection against cats and martens, can be easily removed for inspection and monitoring, providing an unobstructed view of the nest.

With its enlarged brood chamber and predator protection, the 2GR is widely used in parks and woodlands. A common feature of monocultures is the prevalence of attack by insects and other pests; the 2GR helps by encouraging a higher breeding success by birds that eat pests.

Siting & Positioning: On the tree-trunk or on buildings

Cleaning and inspection: Easy Cleaning and inspection due to removeable front panel.

Entrance hole: Ø 27 mm each

Occupants: Blue, Marsh, Great and Crested Tits. Due to the small size of the entrance hole no other species is able to occupy this nest box.

Material: Air-permeable and longlasting SCHWEGLER wood-concrete

- Delivery includes:
- Nestbox with removeable front panel
 - Galvanized steel hanger - forestry approved
 - Aluminium Nail - forestry approved

Colour: Classic Brown

Weight: 6,7 kg
