#### Informative(s):

- 1 Reasons for granting Advertisement Consent.

The proposed displays of the externally illuminated projecting sign and internally illuminated fascia sign are considered acceptable in terms of size, design, method of illumination and location and would preserve and enhance the character and appearance of the conservation area. The additional internally illuminated hanging sign would be located within the proposed window glazing, and as such benefit from deemed consent.

Furthermore, the proposed signs would not impact on the neighbour's amenity nor be harmful to either pedestrians or vehicular safety.

The site planning history has been taken into account when coming to this decision.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and

Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
