Dear Olivier

As a local resident I am strongly objecting to this application for the following reasons:

* Vastly increased traffic, congestion & pollution.

Living on Lindfield Gardens, which acts as a cut through to Arkwright road, it can take up to 20 minutes to reach Finchley road by car on a good day during the school run-this will only get much worse!!

* Fitzjohns & Arkwright area already houses a huge amount of schools in a small concentrated area-how can it possibly accommodate & cope with an additional school-creating overcrowding (people & cars) with potential to cause serious accidents, especially where child are concerned.

Lidia Tyszczyk

Subject:

Application Number	Site Address	Development Description	Status	Date
2014/7847/P	1-3 Arkwright Road Hampstead London NW3	Change of use from residential (Class C3) to education (Class D1), erection of a 3 storey rear extension with associated works.	REGISTERED	16-01-2015

Dear Mr Nelson,

Further to our telephone conversation, I understand that Arkwright Road has a special designation deriving from its use for ambulances to and from the Royal Free Hospital and police vehicles. The existing school runs cause considerable congestion on the road which is often already congested. If the application is accepted this can only considerably aggravate the existing problem and add to the pollution.

Yours sincerely,

Prof Malcolm Weller

30 Arkwright road, NW3 6BH
