Your comments on the planning application

On drawing 3626, rear elevation of the planning application, they show two loudspeakers fixed to external wall at rear Ground/garden level. This will disturb neighbours and be a loss of amenity as it would prevent neighbours enjoying their garden on a summer day. It would also be easy to leave on all day in the summer etc. Residents can always put loudspeakers in the garden for a party but loss of amenity to neighbours means that fixed loudspeakers should be rejected.  
Rest of external fittings are fine.

**Planning Application Details**

The installation of five external loudspeakers in the rear garden should be rejected.
