Your comments

Intended works close to one of our properties (Forest Healthcare Ltd)
Address: Ash Court Care Centre, Ashurst St, London, NWS ZPD.
The issue with planting an Acacia tree, is that the roots will spread.
The roots of this tree grow outward rather than down and remain
close to the surface. This would mean it will expand through the
perimeter of our property and could / is likely to cause adverse
effect on our entrance and car park. Which we feel is an
unreasonable request to make.
Your understanding of this matter is appreciated.
