I support the application (please state reasons below)   
I object to the application (please state reasons below)

Your comments

My house backs on to 11 Albert Terrace Mews and overlooks the building in question.  
In 2008 I had major subsidence problems, every room in this 5 storey building was affected, and a new garage door was needed recently to accommodate the tilt. During recent days at least 12 skips of newly dug clay have left the site, causing sleepless nights as you can imagine. I cannot emphasise how strongly I object to this application.  
Finally - Congratulations Clear, Easy to understand paperwork - Well done!
