Description:

If the location is unclear or there is not a full postal address, either describe as clearly as possible where it is (for example, 'Land to rear of 12 to 18 High Street' or 'Woodland adjoining Elm Road') or provide an Ordnance Survey grid reference:

### 4. Trees Ownership

The applicant is the owner of the trees

### 5. What Are You Applying For?

Are you seeking consent for works to a tree(s) subject to a TPO?

Yes  No

Are you wishing to carry out works to tree(s) in a conservation area?

Yes  No

### 6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

### 7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

*E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.*

T2- Beech

Work Proposed/Size

One of three on the rear right side boundary nearest the house. Very large, mature tree not maintained for some time. In order to contain spread and lessen weight on branch ends and pre-empt potential for limb shedding and to improve structural integrity and condition: Suggest:

Work Proposed/Size

Reduce lateral crown spread all round by 20 - 25% (2 - 3m) to suitable new growing points. Thin upper crown by 20 - 25% evenly to branch ends to lessen density and wind resistance. Clean out crown, remove all deadwood (carrying some large dead branches throughout!), weak and suppressed branches. Lift canopy all round by up to 2m to improve clearance, level off 'browse line' and balance crown.

T3-Beech

Work Proposed/Size

One of three on the rear right side boundary furthest from the house. As for item 2 above:

T4-Tree of Heaven

Mature tree. As for 2 above.

T5-Pear

Work Proposed/Size

Very old tree, again, not maintained for some time. Some structural weakness noted at the base of the main trunk. Crown very old and tired. Suggest:

Work Proposed/Size

Carry out stability test and climbing inspection, report findings. Thin and clean out crown, remove deadwood, weak and suppressed branches, thin branch ends by 15 - 20% to lessen density, lessen weight on branch ends and improve air flow. Lift and balance crown.

## 8. Trees - Additional Information

### For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

### For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:

If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

Yes  No

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.

If YES, you are required to provide for:

Yes  No

*Subsidence*

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

*Other structural damage* (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

### Documents and plans (for any tree)

Are you providing additional information in support of your application?

Yes  No

## 9. Authority Employee/Member

With respect to the Authority, I am:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

Do any of these statements apply to you?

Yes  No

## 10. Trees - Declaration

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.
