The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans:

OS Location Plan, Detail sheet 1, Detail sheet 2, RC/W/11, RC/W/12, RC/W/13, RC/W/07/C

Reason:

For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission

The proposed aluminium framed double glazed window units within the existing timber frames and aluminium cills would respect the character and appearance of the existing building and the Belsize Park Conservation Area. The double glazed window units would not be exact replicas of the existing single glazed windows. However the external appearance would not be significantly different. The proposed windows would also be similar in appearance to the approved double glazed windows in flat 46 at 4th floor level (Ref.2014/3185/P). The design is considered acceptable and complies with the advice in CPG1. The proposed materials are considered appropriate and the proposed alterations comply with the Belsize Park Conservation Area Statement. The proposed replacement windows units would not have any impact on residential amenity.

The planning history of the site has been taken into account when coming to this decision. No objections were received prior to making this decision. Two responses have been received which support the application.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core

Strategy, policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies and CPG1 and CPG6 of the Camden Planning Guidance 2011. The proposed development also accords with policies 7.4, 7.6 and 7.8 of the London Plan 2011; and paragraphs 14, 17, 55 -66 and 126-141 of the National Planning Policy Framework.
