2015/0357/P	Dr J Marshall	Flat 1 2 Frogna	08/02/2015 19:23:18	INT	Balcony/terrace is a serious security issue especially on the side of the house. It also contradicts previous ruling that a green roof could not be used. The glass floor at the front of the house which will act as a light source for the right hand flat will restrict the already limited space for the bins. This is a health and safety issue as well as environmental as there will be no room for recycling bins. Ironically if 2 more flats are added to the property then more space will be needed for bins,not less. Consideration should be given to moving the bin area to the other side of the forecourt.
2015/0357/P	Jennifer Smith-Parker	7 Magdalen Mews NW3 5HB	08/02/2015 18:28:08	COMMNT	I don't understand the need to convert a single unit into a much smaller 2BR. Is a landlord that greedy at the expense of comfortable living space? If this comment will be ignored anyway, please don't work before 7:30am on the weekends and 10am on the weekends.
2015/0357/P	Alex Grobman	4B Frogna	16/02/2015 01:30:42	OBJ	I have concerns that the intended work to be carried out will cause significant noise and the proposed basement could weaken the structural integrity of the adjoining 4B frogna flat. On this basis I oppose the planning application.
