2015/0361/P	Bruce Adkins	8A (GARDEN FLAT) Belmont Street NW1 8HH	09/02/2015 09:50:54	OBJEMPER	I OBJECT. This will again further reduce privacy to mine a surrounding properties. This building is so obtrusively high they will be viewing down and invading residents privacy even more. This build is seems to ignore anyone else's interests adding more and more and more still. There has been a noisy messy build in my back garden 6/7 days a week for years and years now making it unusable outside and often too noisy inside as well. I'm appalled. This building is an invasive eyesaw across Camden that benefits non of it's residents whatsoever. I'm sick of the noise, dust, mess and now I have moss growing in it's damp shade. Does anyone care? Apparently not.
