2014/2464/P	Rick Savage	69 Dobson Close LONDON NW6 4RU	06/02/2015 07:09:04	OBJ	<p>It is not on for this proposal to be put forward, withdrawn, put forward, withdrawn, put forward, amended etc. Each time asking people again about it. It is a ruse to wear down everyone.</p> <p>Additional poles is yet more street furniture for those with disabilities especially visual to navigate around. Unless it is for the benefit of all, then we should not be adding to this.</p> <p>At a more philosophical level, there is freedom of religion in this country and if the religion people choose limits them this should not mean everyone's physical environment with poles and invisible wires.</p> <p>The exact siting of a post at 79 Dobson Close is unclear but Dobson Close is a private road and should surely require separate consultation of the leaseholders and tenants affected.</p>
