2014/6524/P	Anna Quirk	20b Grafton Terrace London NW5 4JJ	06/02/2015 19:52:25	OBJ	My neighbours and I disagree with the parapet form. They have knocked down the butterfly wall shape at the back, in keeping with the rest of the terrace, which shouldn't have been allowed. The view from the back of Grafton Terrace is not good and not what it used to be. We think they should be made to resurrect this to match the neighbourhood and respect its architecture. On another note, when the work on this property started in summer, the builders worked until the evening and on Saturdays, which was very disturbing. They also had no safety materials which was even more disturbing. Why are Camden Council giving this proposed development any time?!
2014/6524/P	William Turner.	20B Grafton Terrace NW5 4JJ	06/02/2015 20:04:21	OBJ	The V-shape at the back of this property has been knocked down, in contrast with the rest of the terrace and neighbourhood. The proposed plan would be better received if the V shape were reformed.
