They open onto the courtyard and people can look out and are very often very noisy. Also there is a very large black chimney that was erected at some point which is extremely ugly and very noisy to all the residents at 61a Endell Street. If there is no planning for the chimney then enforcement needs to be taken to take it down. Also the windows need to comply to previous listed building and planning consent. There is also a mobile air conditioning unit at ground level which I also believe does not have permission.
