2014/7589/P	Mark Brown	87 Frogna Hampstead London NW3 6XX	10/02/2015 09:08:13	COMMNT	We strongly object to this application. The proposed garages would be very close to our back wall and block out light from the windows at the rear of our property. In particular we have a window on the ground floor at the rear of our property which currently looks out onto the three parking bays (and receives natural light) but under the proposed plan would seem to be blocked by the sidewall of the proposed garage.
