2014/7877/P	Tom Henderson	Adjust Your Set 7-10 Charlotte Mews	11/02/2015 14:08:39	OBJEMPER	Hello, Adjust Your Set are based in Charlotte Mews and we have just noticed a structure that has been put in the mews almost directly opposite. This is the first time we have heard of anything being put in place. After speaking with the builders I am now aware of this work that is due to take place. On behalf of my company I am very concerned about the distribution this is going to cause us. I am surprised that we haven't been contacted directly to discuss and input in to this decision, that will clearly cause us a lot of disruption. Not only will it be a struggle to work with the noise pollution but we have clients frequent this office regularly. Who can I talk to and discuss our concerns?
