2014/7916/P	T. Jaggs	Victoria Road Kilburn	11/02/2015 12:08:47	SUPC	<p>CURVED ROOF MORE DESIRABLE</p> <p>Given that the property is in a prominent road junction and the existing build has a distinctive curved elevation.</p> <p>* The roof extension would soften & complement the overall form, if it also had a curved edge (as shown in the pre-application 3D sketch).</p> <p>* Would echo the LPA's comment that the extension should be sufficiently set back from the roof parapet.</p>
