

Dear Mr Vivers,

Further to my recent email, it would be really useful if the planning applicant could provide accurate dimensions on the existing building drawing. There are no measurements included at all and therefore it is impossible to compare the proposed scheme with what exists at present. I assume that you are able to request this basic data from the applicant?

I look forward to speaking to you soon.  
Kind regards,

Nicola Shears

> Dear Mr Vivers,

>

> I understand that you are the Case officer for this planning application. I wish to register my interest in being consulted on this project as my property is directly opposite the site in question. My property is even referenced in the application (as is that of my neighbour at number 76 Camden Mews) and a photograph of the front of our houses also features. I am certain that this is simply an oversight. Oddly, all the rooms at the hostels and home at the top of the mews are listed under the consultees but I cannot understand why they would be listed as they are not impacted on by the development. I have a number of questions and issues regarding the application and would like the opportunity to understand the planning provisions that a change of use application such as this would be subject to. I would be really grateful if you could you call me to discuss. My telephone number is [REDACTED]. Thank you in anticipation of your response.
