2015/0069/P	celia Goreham	71 Patshull Road	16/02/2015 12:03:15	OBJ	Raising of roofs in the Conservation Area is uncharacteristic of the CA as it fundamentally changes the roof form of the area and adversely affects the skyline and surrounding streetscene, also this plan appears to have stairs above the roof level which compound the disruption to the skyline by the change in the roof-line. Balconies are disruptive to neighbors causing loss of privacy, noise, and overlooking. Bartholomew estate and Kentish Town CAAC therefore object to this proposal.
