2015/0355/P	Diana Voss	8 Cambridge Terrace Brighton SA 5048 Australia	17/02/2015 07:23:08	COMMEMP ER	<p>I am writing on behalf of my mother, Lady Listowel, who lives at No. 10 Downshire Hill and so is an immediate neighbour to this development. I act as my mother's attorney (a copy of my mother's power of attorney is held by Camden). I am not able to attend or speak at committee as I live in Australia but I would appreciate receiving details of the committee's decision and any other relevant documentation - thank you. Should you need to contact me by phone - please note that Australia is currently 10 1/2 hours ahead - thank you.</p> <p>My mother objects to the proposal for fixed outdoor loudspeakers next door. My mother loves spending time in her rear garden. It is a peaceful place. My mother's ability to enjoy her garden would be severely curtailed if loudspeakers were fitted next door. To date, it has been a quiet neighbourhood so this sort of noise is not something that the neighbours are used to. All are used to quietly enjoying the peace of their gardens.</p>
2015/0355/P	Meg Weston Smith	14 Pilgrim's Lane	17/02/2015 16:30:09	COMMNT	<p>The noise coming from loudspeakers will almost certainly interfere with the wild life, such as birds. The gardens between Downshire Hill and Pilgrim's lane are a haven for the natural world. Human beings should not destroy such a habitat.</p>
2015/0355/P	Janine Griffis	14 Denning Road NW3 1SU NW3 1SU	16/02/2015 08:58:43	OBJ	<p>As chair of the Pilgrim's to Willoughby Residents Association, I am writing on behalf of residents whose gardens back onto the garden of 9 Downshire Hill. They are most concerned about the proposal to mount permanent speakers in the garden of 9 Downshire Hill. Having constant background music emanating from a neighbour's garden would be an irritant akin to a noisy air conditioning unit and would greatly diminish their ability to enjoy the peace of their own garden. We would urge that this proposal for external speakers be refused.</p>
