2015/0448/L	H McCarthy	Flat 2 Maryon Hall 19 Froggnal Lane Hampstead London	16/02/2015 15:23:56	INT	<p>It would be impossible for Camden Planners to make an informed decision on this application because the plans do not include elevations to this building, Maryon Hall, which had a complex conversion into four flats in 1965, and created intermixed levels. Therefore any application to this building should have elevations.</p> <p>My understanding is that an incursion into the flat underneath is planned but it does not show on the existing plans.</p> <p>Please direct the applicant to resubmit the plans with elevations to include all parts of the building immediately above and below the applicant's flat.</p> <p>Further:</p> <p>Drawing GA 103: The plan's wording is that "demolition of existing partitions (generally non-original)". Because this is a 200+ year-old Grade II Listed building the plans should be very specific about which original partitions the applicant is proposing to demolish.</p> <p>Drawing GA 103 and 000: These are marked in the colour red with capital letters "PRELIMINARY" which implies that these drawings have been sent to you in error, or that the material sent to Camden Planning is incomplete.</p> <p>Why is a decision being asked for only on preliminary drawings?</p> <p>Again, please direct the applicant to resubmit the plans with elevations to include all parts of the building immediately above and below his flat.</p>
