**Re: Non material amendment – to planning application 2007/0481/P
For 90A Savernake Road, London, NW3**

02.02.2015

Dear Emily,

Further to our various emailed correspondence over the period from June to October 2014 regarding the afore mentioned property, on your advise on how to approach the changes we now apply for a Non material amendment to the original application 2007/0481/P.

The main reason the changes are made are due to the clients change of circumstances since the works commenced in 2008/09. The client's mobility has decreased and as a consequence is finding it difficult to move around the property both from within and access out of the property. The use of a walking frame and wheelchair has further restricted access and we have looked to increase opening sizes where possible within the flat and create better access in and to of the flat where feasible.

I also attach a letter dated 19th Jan 2015 from Heather Russell at Central and North West London, Camden and Wheelchair Service, which outlines further our client's on going access and mobility situation.

I would be grateful if you could contact me should you require any further information or wish to discuss the proposed scheme before finalising your response.

Kind regards,

Treena Boon
