Subject: Planning application 2014/7925/A

Dear Camden Council,

I am writing from the Fortune Green & West Hampstead Neighbourhood Development Forum (NDF) to comment on planning application 2014/7925/A.

The NDF strongly supports the weekly farmers' market on the West Hampstead Thameslink station forecourt on Iverson Road and wishes it to continue.

We support this application for a temporary banner for a four month period.

However, we have received a number of complaints about the metal railings used to advertise the market, which are left on the forecourt on non-market days. We suggest that, if the application for a banner is approved, these metal railings are removed.

Best wishes,

James Earl
(Chair, Fortune Green & West Hampstead NDF)
