The applicant is the owner of the trees

5. What Are You Applying For?

Are you seeking consent for works to a tree(s) subject to a TPO?

Yes No

Are you wishing to carry out works to tree(s) in a conservation area?

Yes No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s) enter its title or number below

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Front Garden:

2 x Lime - Approximately 9 and 12m. These trees have produced healthy regrowth since they were last pruned. Reduce crowns by 30-40%. Thin crown densities by 20-25%. Reduce epicormic growth on main stems and clear street lamp by 1-1.5m. Reasons - Maintenance and to help curtail tree's sphere of influence.

Rear Garden:

Large Beech - Located on rear boundary. Reduce one horizontal branch growing towards and touching guttering back to a suitable growth point allowing a clearance from the building of approximately 2-3m in order to control encroachment and potential damage to guttering. Raise low crown skirt to left hand side of the tree to clear fence by approximately 1.5-2m.

Pyracantha - Located adjacent house. Reduce extraneous growth back into main crown structure to tidy.

Elder - Located adjacent house. Remove dead wood and thin crown density by 20% to tidy.

8. Trees - Additional Information

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)
