To London Borough of Camden, Development Control Team

Planning Ref: 2015/0659/P

Address: 58 Fitzjohns Avenue, NW3

Description: Boundary railings (retrospective)

Case Officer: Tendai Mutasa

Date: 24 February 2015

This application is presented in a way that makes it virtually unreadable. It plainly concerns a section of boundary railing between No 58 and one of the adjoining houses, but which one, where the railing is sited, what it looks like—let alone why it was erected without Planning Permission—is completely unclear.

It may be minor matter of little importance—we cant tell—but we really do not think this application ought to have been validated.

We call for more, and clearer, information. Otherwise, please refuse.
