2015/0131/T	WILLIAM P GODFREY	15 SHIRLOCK ROAD LONDON NW3 2HR	23/02/2015 16:31:47	COMMNT	<p>I thoroughly support the application; the tree has caused subsidence problems for both Nos 11 and 13 Shirlock Road. If the felling of the No.13 tree was prevented and resultantly the subsidence were to spread to No.15 then I would be looking for appropriate compensation from those responsible.</p> <p>In addition the tree hangs over the entire public pavement and does at certain times of the year deposit some very unpleasant berries which turn the pavement into a skating ring. The pavement is a liability at that time and I am surprised that there have been no serious accidents and further that the local authorities have not taken some action to address the situation.</p>
