2015/0462/P	R Halliwell	13	24/02/2015 09:11:05	OBJ	We wish to object to the proposed planning application. The site is very close to Primrose Hill Primary school and many children attending the school cross the road right outside the proposed redevelopment site. The huge increase in traffic during the works and afterwards with the increased residential use will have a significant impact on road safety.
2015/0462/P	stefan isaacs	17 Edis Street nw1 8le nw1 8le	23/02/2015 17:06:08	OBJLETTE R	To whom it may concern, I wish to object to the revised plans for the development at 44-44a Gloucester road on the following grounds : I believe that the changes proposed are material in nature and threaten to alter the feel of the area. The addition of a considerable number of apartments is likely to have wide ranging implications such as, but not limited to, road safety, noise pollution, access to amenities etc.
2015/0462/P	Patricia Lu	Grd Floor 52 Gloucester Avenue London NW1 8JD	19/02/2015 16:33:05	OBJ	Objections to change of use for the following reasons: Noise and traffic pollution due to demolition, building works and trucks trundling through Gloucester Avenue at all hours of the day which would be ongoing for several months and could last for a year or more, less parking spaces available. Personally already experiencing reduction in natural light from the recent development of the Volvo site/garages. I would prefer a mixture of use - some office space/workshops and some accommodation. Also to keep the façade if poss and courtyard for extra parking, definitely no higher than the immediate surrounding buildings.
2015/0462/P	Riccardo Gubbioli	52 Gloucester Avenue	24/02/2015 16:52:25	OBJEMPER	I would like to object to this planning application first and foremost as I believe that it shouldn't qualify under GPDO as not all units originally under the scheme were offices but rather there was mixed use.
