| 2015/0584/P | Mr and Mrs R Speight | 105 Gloucester Ave NW1 8LB | 18/02/2015 19:24:12 | OBJ | <p>We strongly object to the planned erection of a studio in the rear garden of 101a Gloucester Avenue</p> <p>This is a huge permanent development which bears absolutely no comparison to the small and temporary tree house and garden shed of the neighbours.</p> <p>Its intended use as a working studio implies noise pollution affecting adjoining gardens as well as light pollution from the entrance and the planned roof light.</p> <p>If allowed it will moreover and most importantly create a disastrous precedent in allowing such large permanent buildings to be erected in small gardens .</p> <p>The ecological threat to the green corridors which these gardens provide must be retained and not impoverished in this way.</p> <p>If this application is allowed it will inevitably unleash a torrent of such buildings with devastating irreversible long term consequences.</p> |
