2015/0690/P	Annabell Evans	43 Bacton	24/02/2015 11:00:52	OBJ	Since the main works have been carried out I have already bought an outside storage cupboard which does not protrude above the balcony wall and therefore does not spoil the view of the heath. I do not wish to have a large grotesque obelisk of a cupboard spoiling my view from the balcony. Surely the conversion of the old heating cupboard is adequate compensation for the loss of space in the hallway cupboard. I strongly detest this building application proposal as it would not only spoil the views from the balconies but also ruin the look of the building and therefore diminish the good work that has been achieved to the outside of the block.
2015/0690/P	N Stephens	Bacton	24/02/2015 13:53:39	COMMNT	Due to the recent works our main storage area has been 'taken' away and we have been left with hardly storage in our properties (plus less space in all rooms due to pipe work etc.). The 'installation of additional storage to balconies' would give us more space in our properties.
2015/0690/P	rob kirt	75 bacton haverstock road london nw54px	24/02/2015 19:15:32	APP	please we do not need additional storage,and these storage boxes will ruin our balconys, we only lost a small bit of storage when the new boiler tanks got put into our storage cupboards, we can still use half of these storage cupboards next to the boiler tank and we now have more storage being made in the bedroom where the old heaters used to be so we have more storage then we ever did have originaly, I live in a one bedroom flat and my storage is plenty, please ring me if you need to look round my flat and see for your self we have lots of storage all ready and looking round a one bedroom flat will confirm this to you, my number is 07865737456 Robert, flat 75 bacton tower,my balcony is clutter free and I am lucky to have it,more storage will just be a waste of money, I am in a one bedroomed flat I don't know what the studio flats storage is like but the one bedroom flats have plenty of storage all ready. regards robert
2015/0690/P	Genet Tadesse	62 Bacton Haverstock Road London NW5 4px	24/02/2015 11:41:29	SUPPRT	I FULLY SUPPORT the planning application. Living in a studio flat in particular, it will help me store my household items for which I do not have space inside my flat. It will not affect my access to sunlight nor invade the privacy of my neighbor. It will not affect the design of the property either. The additional storage will only help me store my household items safely without causing any harm to anyone. I trust the Planning dept will permit the application. Thank you Genet Tadesse 62 Bacton, Haverstock Road, NW5 4px
2015/0690/P	Mark Charman	Flat 70 Bacton Tower Haverstock Rd NW5 4PX	24/02/2015 11:29:06	COMMEM AIL	Yes I am in favour of this application as there is less storage inside the flat as a result of the upgrading of the heating system.
2015/0690/P	N Stephens	Bacton	24/02/2015 13:54:01	COMMNT	Due to the recent works our main storage area has been 'taken' away and we have been left with hardly storage in our properties (plus less space in all rooms due to pipe work etc.). The 'installation of additional storage to balconies' would give us more space in our properties.
