The applicants or their representatives have behaved duplicitously in seeking to get support from the local community. The digging of a basement is potentially a problem for the surrounding properties. Most important, packing in this large number of one- and two-bedroom flats represents no gain for the local community. I assume these flats will be sold at high prices which only wealthy outsiders (perhaps buy-to-let investors) will be able to afford. We need housing that will benefit Kentish Town rather than property speculators. This is the wrong kind of development for this area, and I hope you will reject it.
