Dear Mr Martin

Regrettably we were too late in sending our comment via our PIN number and have been urged to contact you directly concerning this application.

Our Comment is therefore as follows:

OBJECT [DK]

This suntrap house is intact and unspoiled and retains all its original feature, as do most of the houses in this group.

It is prominently sited on a corner and we strongly object to any alteration to the original side dormer, we would not object to a rear dormer if it was modest in size and sympathetic in design.

We object to the rooflight to front roofslope.
