2015/0218/P	Francesca Moxen	207B Belsize Road	03/03/2015 15:16:02	OBJEMPER	I wish to appeal against the proposed change of use of the property 207 Belsize Road. First the building has been classified incorrectly in the first place (it is a disused shisha pipe shop/storage area and not a solicitors and the dishonesty here sits very uneasily with me. Considering this is a commercial property I find it very unusual it continues to be used outside business hours by those that worked there when it was a shisha pipe shop, blurring the description into residency usage. There is often loud music and banging and an unpleasant smoke smell outside the property. I fear this will indeed worse with the proposed change to a concierge office. Along with the excessive gas emissions and constant noise of cars, this kind of office would encourage anti social behaviour from the public to take place outside - loud noises and littering which would make my time spent at home deeply unpleasant with constant disturbance.
