2015/0437/P	Mr Long	6 Maryon Mews Hampstead London	03/03/2015 13:32:41	COMMNT	<p>It is not clear from the application whether the proposed access from the rear of the property (alley behind 2-8 Maryon Mews) is intended to be for construction purposes only or act as a new permanent entrance.</p> <p>The reason I ask is that the alley is not currently used for regular access other than by the mews houses (2-8) for maintenance. It is occupied by plants and flowers and isn't suitable for use as a regular through route without impacting its look and appearance or creating privacy issues for those properties whose rear windows face it.</p> <p>Clarification would be appreciated.</p> <p>I have no comments on the other parts.</p>
