Informatives:

- 1 Reasons for granting listed building consent.

The proposed railing and balustrades to the rear second floor terrace of the main house will not obscure any significant architectural features or otherwise visually harm the building, and are considered acceptable in terms of location, proportions and design. The alterations proposed will not result in the loss of original or otherwise historical fabric and will not affect the integrity of the building. The proposal is thus considered to be sympathetic to the special architectural or historic interest of the listed building.

The site's planning history and relevant appeals have been taken into account when coming to this decision. No representations were received as a result of consultation.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.66 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policy CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policy DP25 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policy 7.8 of the London Plan 2011, and paragraphs 14, 17 and 126-141 of the National Planning Policy Framework.
