I just heard of the plans to put in smaller windows . I wouldn't want them either in the street
Thank you

In regard to your comments for planning permission for no 22 . I'm afraid I cannot sanction UPV doors for the wood ones . It would set a president and totally spoil the look of the street . So my answer is no .
Sincerely

Dear Zenab

Objection

We would like to make the following comments with regard to application no 2015/0353/P. Please do not publish my name, address or e-mail address.
The proposed UPVC window will look distinctly odd in a terrace where there are only garages at ground level and will affect the symmetry of the terrace.
