Your comments on the planning application

Position of Swimming Pool Mechanical Plant Equipment

I am extremely concerned and disturbed to learn about the above submitted application. I have lived in Hampstead for over 20 years and in my existing home for over 8 years. One of the reasons I moved here was because of the tranquillity and conservation of peace and the natural surroundings of the Heath.

I suffer from clinical insomnia which translates into panic attacks and depression and over the last 20 years I have

### Planning Application Details

been advised by my doctors that sleep is extremely important for my state of mind.  
I am therefor very fearful that with the mechanical plant equipment for the swimming pool being literally circa 18 feet away from my bedroom window - I will not be able to sleep properly at night. At present the area is very quiet but the constant hum and drone of this on going equipment will be devastating for my state of mind and health, as there is no doubt it will affect my inability to sleep.  
Surely this is a total invasion of my space and privacy and I cannot understand why the plant equipment has to be positioned directly at the back of their house, which backs on to the back of my house. Can this equipment not be at the front of their house?

I only have a very small patio at the back so there is absolutely no way I will be free from the noise. I should be allowed to open my window for fresh air without feeling trapped and restricted.

I will be happy to forward a medical report from my doctor if necessary but I am feeling very depressed about this application from a neighbour who is clearly quite selfish in every respect.

I would be very grateful if my objections are considered as this will clearly have an impact on my life.
