Your comments on the planning application

I would like to strongly oppose to the above reference planning application for 17, Branch Hill!

I have been living in Firecrest Drive for nearly 8 years and enjoyed it's unique tranquillity, quietness and also blend of Nature and Architecture!

Not only the design of the house is completely out of sink with the present surroundings, but as a result of it our privacy will be compromised. I am also concerned about future impact of digging the basement, that could potentially impair drainage and cause land slide.

One of the main concerns is the position of the swimming

pool supporting equipment (so called mechanical plant)! My understanding from the plans, it is positioned right on the boarder of my garden, as far away as possible from their house. I presume it is for a reason, not to cause too much noise and vibration! The acoustic test was not done properly, i.e. during day time on Branch Hill - next to the busy road! It should be done in Firecrest Drive after 6pm! Why should we get impacted by that? I work in a very stressful environment and cannot imagine going back home not to be able to sit in my garden or sleep listening to the constant noise of the mechanical plant of my neighbours! How insulting and selfish of them to even suggest that! I am not taking into account the temporary impact(in fact 2 years plus) worth of constructing related noise (including Saturdays)and dust straight into my house as we are just opposite!
